<sup>1</sup> Availability may vary to individual products. Some items have minimum order requirements with additional charges; please check with our sales representatives for details.

**TIPS** Why we have minimum order requirement for customization?

Massive quantity order helps reduce materials cost and unit laboring cost significantly, as well as the design and manufacturing cost. In order to provide creative product designs with a competitive market price and benefit our valuable customers consequently, the minimum order requirement applies.

Alternatively, we maintain various options to the case of each product, it will be more cost-effective to make your choice from those default cases.

[ROCKEY Smartcard Reader \(SIM size card\)](#)

**TIPS** What are the technical requirements on logo design?

Once you decided to make your own logo on the product, we will send you the graphic design template via email, which include the shape or size requirement.

After you finish your own design, please send us the graphic with AI or PSD format, and indicate each color of your design with a PANTONE ID and the Font name, Font size, where applies.

Our factory will make printing samples for your approval before it goes to production.

### LOGO ON FRONT PLATE

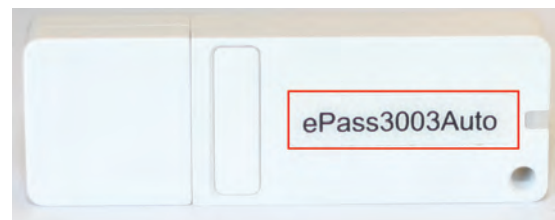

Logo customization is available for products with large front panel display, for example, our OTP token. Below is a sample of our OTP C100/C200-H3+ token front panel customization, where the button color and the name description are changed. We can also add a company logo to this customization if needed.

---

### LOGO ON STICKER

When it is limited to print required information on the token device, due to its physical sizes, we provide a customized sticker as an alternate solution; with which the company name, the product name, as well as the company logo can be printed on it.

## OTHER AVAILABILITY OF CUSTOMIZATION

In addition to our customization services introduced above, we also provide special customizations upon individual request. Below are some examples for your reference:

### 1. Serial Number and Labeling

All of our OTP tokens must have serial numbers and labeling; however, apart from our standard design, you can choose your own unique serial numbers with a different length and labeling design. Some extra charges or conditions may apply.

### 2. New External Case Design and Manufacturing

If you have your own ideas for external case design, or you need special materials for its manufacture, we will make any effort to meet your needs.

### 3. OEM and ODM

We are open to any OEM and ODM corporation opportunities, please call our sales office at 1-877-255-7788; submit your requirement online at <http://www.hypersecu.com>; or email us at [sales@hypersecu.com](mailto:sales@hypersecu.com).
